

PROPER JOB

Proper Job is a community reuse centre. Our charity aims are to reduce waste and to conserve resources by keeping reusable items away from landfills. We display these useful items for sale in an Aladdin's cave of pre-loved treasures.

Proper Job's vision is of a protected and preserved local environment; with local people taking active and positive responsibility for their wasted resources, by engaging in waste reduction, repair, reuse, composting and recycling. The local natural environment is improved, resources are conserved, the community is healthier and more resilient and the shift in behavior brings with it positive economic impact.

We are fiercely committed to principles of sustainability and educating to conserve resources. We are passionate about enabling our community to become responsible for their own waste which could lead to Chagford being a zero waste town.

You are invited to join training sessions and skill sharing workshops. We offer these to promote the benefits of reusing, recycling and reducing in this modern age. To find out more go to www.proper-job.org

If you would like to donate items for re-use or recycling, please check what we can and cannot take and what items we charge for. You can either bring them to us at Proper Job or we can pick them up in our van for a small charge.
